It's obvious (obvious)  
Ayyy, oooh  
It's obvious (obvious)

[Verse 1:]

I'm thinking it's about time  
I said what I feel  
And now you wanna hold me tight  
It's something quite surreal  
You never should've looked so longer  
For us to cross that line  
When I've been in your heart  
And you've been on my mind  
(I only wanna) feel the fire and the flame  
(I only wanna) get your feeling just the same  
(I only wanna) let him know this is the day  
When I'll be in your heart  
And I'll be in to stay

[Chorus:]

Cause now it's obvious (obvious)  
It's clear to us (clear to us)  
It's gonna be so good (good)  
Be so good  
And now it's obvious (obvious)  
Now it's clear to us (clear to us)  
It's gonna be so good (good)  
Be so good (good)

[Verse 2:]

I'm thinking on my mind  
I should take you home  
Let me cast my eyes upon your pretty thoughts  
My love begins today only that's how it feels  
So let's not run nowhere

Boy, let's just stop and stare  
Cause  
(I only wanna) feel the fire and the flame  
(I only wanna) get your feeling just the same  
(I only wanna) let him know this is the day  
When I'll be in your heart

And I'll be in to stay

[Chorus:]

Cause now it's obvious (obvious)  
It's clear to us (clear to us)  
It's gonna be so good (good)  
Be so good  
And now it's obvious (obvious)  
Now it's clear to us (clear to us)  
It's gonna be so good (good)  
Be so good (good)

[Hook:]

I know we're right I can feel it  
So hold me close and lock me in it  
Save me, baby  
To a quiet place where I can sit and kiss your face  
That's all I want to do

[Chorus: x2]

It's obvious  
It's obvious (obvious)  
It's clear to us (clear to us)  
It's gonna be so good (good)  
Be so good  
And now it's obvious (obvious)  
Now it's clear to us (clear to us)  
It's gonna be so good (good)  
Be so good (good)
