Come on girls

Sit in here and feel it strong on top of the world
You know you gotta be your best friend
On a solid ground, independent girl
You know it's your time, girl, you know where you stand

Don't you stop now, once you've got it
Better live your life
'Cause now we're here to remind ya
No one lives your times

E X P R E S S
All my girls shout it and express yourself
Say E X P R E S S
Girls if you feel me just express yourself

Come on girls

Everybody get it started, load your mind
Before you go and put on your shine
Close your eyes and feel the heat 'cause now it's your
time
You gotta, we gotta go we're first in line

Don't you stop now, once you've got it
Better live your life
'Cause now we're here to remind ya
No one lives your times

E X P R E S S
All my girls shout it and express yourself
Say E X P R E S S
Girls if you feel me just express yourself

Let it go and feel the flow now
Just let the music take control now
Let it go and feel the flow now
Just let the music take control now

You make the temperature rise
And turnin' up the heat

You make the temperature rise
And boostin' up the beat

You make the temperature rise
And turnin' up the heat
You make the temperature rise
Rise, rise, rise

E X P R E S S
All my girls shout it and express yourself
Say E X P R E S S
Girls if you feel me just express yourself

E X P R E S S
All my girls shout it and express yourself
Say E X P R E S S
Girls if you feel me just express yourself
