Bratz
"Let Go"

Let go, let yourself be free
Show how you feel inside
Let go, let the whole world see
'Cause you never know if you never try....

Did ya ever wonder
If you could reach the stars
First you gotta let go
Take the time, listen to your heart and know that....

You could dream, any dream
Any possibility
Believe what you really feel
It could become real, so....

Let go, let yourself be free
Show how you feel inside
Let go, let the whole world see
'Cause you never know if you never try....

Let go, let go, let go, let go
Let go, let go, let go, let go....

Did ya ever picture
Yourself dancin' in the clouds
If you really want to
Then you know you can go there now....

And just imagine it, you'll go far
In your world, being a star
Make a wish, close your eyes
You feel like you can fly, so....

Let go, let yourself be free
Show how you feel inside
Let go, let the whole world see
'Cause you never know if you never try....

So let go
It's easy if you try
Just close your eyes and
Let go

You can do anything you like
You can even fly....

Let go, let go, let go, let go
Let go, let go, let go, let go....

Let go, let yourself be free
Show how you feel inside
Let go, let the whole world see
'Cause you never know if you never try....

Just believe in you, it will work out right
Just believe in you, it will work out right
'Cause you know that you can shine....
