Tell me, are you ready now?
Gonna show you how we turn it up
Time to start the party here tonight

We know what you're waitin' for
Gonna turn it up a little more
Make you wanna start to move
Come on, now, don't be shy 'cause

When you're gettin' up in the groove
And you're feelin' it like you do
Make you wanna dance, make you wanna dance
Make you wanna, oh oh

'Cause you know we got what you need
And you know we don't stop the beat, no
Make you wanna dance, make you wanna dance
Make you wanna, oh oh

Everybody here with me
Come on, let me hear you scream
You know the more you get, the more you want

Gotta get your groove on, that's the way
Keep the party goin' all night and day
You know it's irresistible
And now you just can't stop 'cause

When you're gettin' up in the groove
And you're feelin' it like you do
Make you wanna dance, make you wanna dance
Make you wanna, oh oh

'Cause you know we got what you need
And you know we don't stop the beat, no
Make you wanna dance, make you wanna dance
Make you wanna, oh oh

When we're jammin' up in the club
And you know you can't get enough
Make you wanna dance, make you wanna dance
Make you wanna, oh oh

When the party is goin' on
And you know that you feel the song
Make you wanna dance, make you wanna dance
Make you wanna, oh oh

Just sayin' that's how we do it, do it
So let go and enjoy the ride
Just enjoy the ride
Let me see the way that you move it, you gotta move it
Come and party everybody
Have a good time

When you're gettin' up in the groove
And you're feelin' it like you do
Make you wanna dance, make you wanna dance
Make you wanna, oh oh

'Cause you know we got what you need
And you know we don't stop the beat, no
Make you wanna dance, make you wanna dance
Make you wanna, oh oh

When we're jammin' up in the club
And you know you can't get enough
Make you wanna dance, make you wanna dance
Make you wanna, oh oh

When the party is goin' on
And you know that you feel the song
Make you wanna dance, make you wanna dance
Make you wanna, oh oh
