(Chorus)

One of a kind
Shine so bright
Nothing compares
One of a kind
There's no one like us anywhere

(Verse 1)

We're unique, even more
We don't drift like a feather we take off and soar
We're unusual, that's right
Even more than a twinkle, we rock the night

Unlike the fairytales you've heard before
We're unexpected, we're so much more, we're

(Chorus)

One of a kind
Shine so bright
Nothing compares
One of a kind
There's no one like us anywhere

One of a kind...

(Verse 2)

We are magical, that's right
And just like the stars, we can light up the night
In a world our own, like our dreams
And we sparkle, and shine, if you look then you'll see

Unlike the fairytales you've heard before
We're unexpected, we're so much more, we're

(Chorus)

One of a kind
Shine so bright
Nothing compares
One of a kind
There's no one like us anywhere

(Verse 3)

Step inside another world you've never been before
With something that you've never seen and so much
more

One of a kind, we're shining bright, unusual and unique
More than just a fairytale, more than fantasy, we're

(Chorus)

One of a kind
Shine so bright
Nothing compares
One of a kind
There's no one like us anywhere

One of a kind
Shine so bright
Nothing compares
One of a kind
There's no one like us anywhere
