Gonna get the party on, Ohhho  
Wanna keep it going strong  
All my girls here by my side  
Yeah we're gonna make it happen  
'Cos we do it every time

And everything is better  
When we're all together  
Everybody having fun ohh.. (Having fun)  
Good times even better  
When we're all together  
And we've only just begun ohhâ€¦!

Gonna make the party right  
Yes we are  
Get it started never stop  
Anywhere and any time  
All I need is all my girls  
And to make it turn all right

And everything is better  
When we're all together  
Everybody having fun ohh.. (Having fun)  
Good times even better  
When we're all together  
And we've only just begun ohhâ€¦!

Everything is better  
When we're all together  
Everybody having fun ohh.. (Having fun)  
Everybody sing along  
They're playing our song  
Every little bits better  
When we're all together
