I wanna know somethin'  
What's goin' on?

I can feel it comin'  
Is there somethin' buildin' up around me, yeah?  
Rushin' through the areas  
And I know, I gotta move my body, yeah

Everybody, hey, hey, you  
I need to know  
Just how hot you make it  
Once you feel the record drop

So mister, turn the radio on  
All you girls wanna hang up the phones  
And get on down to this before it's come and gone  
From TV shows to the radio, what's goin' on?

The word is I've a learnin'  
And it ain't turnin' only when it suits you  
Don't talk about it, be about it  
Have you when you can and make a move  
Yeah, yeah, yeah

Hey, hey, you  
I need to know  
Just how loud you make it  
Once you feel the ground rock

So mister, turn the radio on  
All you girls wanna hang up the phones  
And get on down to this before it's come and gone  
From TV shows to the radio, what's goin' on?

What's goin' on?  
What's goin' on?  
What's goin' on?  
What's goin' on?

Yeah, yeah, yeah  
Oh, yeah, yeah, yeah, yeah  
What's goin' on?

What's goin' on?  
What's goin' on?  
What's goin' on?  
Yeah, yeah, yeah

I can feel it comin'  
Is there somethin' buildin' up?  
Rushin' through the areas  
Like I feel it, I can stop

The world is always turnin'  
And it's never gonna stop  
So give it all you got  
Give it all you got

So mister, turn the radio on  
All you girls wanna hang up the phones  
And get on down to this before it's come and gone  
From TV shows to the radio

So mister, turn the radio on  
All you girls wanna hang up the phones  
And get on down to this before it's come and gone  
From TV shows to the radio, what's goin' on?

What's goin' on?  
What's goin' on?  
What's goin' on?  
What's goin' on?

Yeah, yeah, yeah  
Oh, yeah, yeah, yeah  
What's goin' on?
