Take your heart, put it into my own heart
Then I'm gonna make a brand new beginning
Find someone else to discard it upon

I never asked for this

Does anybody ask for this?
Just want somebody to reach out and kiss
Someone with suitable lips

Oh, all your, all of your phone calls in the middle of the
night
Now things just don't seem right
Don't let the goodbyes get too good tonight
Don't let the goodbyes turn into goodnights

I never asked for this
Does anybody ask for this?
We just want somebody to reach out and kiss
Someone who hardly exists

Don't let the goodbyes get too good tonight
Don't let the goodbyes turn into goodnights
Don't say goodbye for the rest of our lives
'Cause I don't care, you don't care, we don't care
It doesn't matter
I don't care, you don't care
We don't matter, we don't
We don't matter
