If you've got money, we can go get lost
I can get anything at a cost
And we can go, go down and break breakdowns
I know six ways we can get away
Or I got 12 if you wanna stay

And go, go down and break breakdowns

Everybody's trying to listen to what I say
Write it down, turn around and spit it in my face
I can't stand to be in this place

Everybody's trying to listen to what I say
They write it down, turn around and spit it in my face
I can't stand to be in this

Six o'clock meds is my favorite taste
Strapping me down is for keeping safe
And to go, go down and break breakdowns
They say to calm, calm down and just lay, lay down

Now everybody's tired of listening to what I say
Write it down, turn around and shit right in my face
I can't stand to be in this place
