The world don't need another lover
The world don't need another lover

I've had a pocketful of love in my time
But the best of alls you
I guess we perfected the emotional thing
Just we two

I searched all over for the permanent one
And then I found you
Cos no ones better when the lights go down
And there's just we two

Chorus:
The world don't need another lover
Now it's got you now it's got me
The world don't need another lover
Cos our loves more than the whole world needs
Baby

You can't buy passion like it every day
From a second hand heart
You just can't sepaarate the meant to be
They can't tear us apart

Chorus

Girl our loves invincible
I'm so proud with your hand in my hand
Catch a wind and fly away
Were on a one day trip to wonderland

Chorus

Girl our loves invincible
