(Alex Gibson/Chris Gibson/Patrick Gibson/Felix Landau)

Five o'clock in the morning, waking up on a cold back street

Lives too sad and is yearning, shoeshine boy with no food to eat

Is was then to the, he ain't

I saw you in my sleep, I walked down dead end streets

I fly on eagle's wings, we're out in spaceland where angels sing

I believe you are the gang of all-night riders

I'm the guy whom all the ladies keep the eye

You are the queen of rock and roll town and I dance with you

Move your body - hey ho, come and do it hey ho

Baby I'll let you groove (groove groove) when I dance with you

Move your body - hey ho, say you'll do it hey ho

All I want to do is dance with you

I toss and I turn, I'm lost, I freeze I burn

I run from pouring rain, into the sunlight I'm saved again

I'm a star of radio and television

Musics playing in your audio in my arms hey ho !

Move your body - hey ho, come and do it hey ho

Baby if it's alright (alright, alright) when I'm holding you

Move your body - hey ho, say you'll do it hey ho

When I dance with you

Move your body - hey ho, come and do it hey ho

When I'm holding you

Move your body - hey ho, come and do it hey ho

Baby if it's allright (alright, alright)

Please don't make me blue

Move your body - hey ho, come and do it hey ho...
