THE MOST BEAUTIFUL LOVE SONG

performed by: Debbie Gibson

written by: Deborah Gibson

Verse 1:

I wanted to write the most beautiful love song

Because we have the most beautiful love

But words never came harder

It's not as blatant as days has gone by

It's hard to be as unique as you

But since it's for you I'll try

We're you feeling what I was feeling?

We're you dizzy when you let go?

Does it seem like sometimes when you're alone

I'm the only thing you really know?

Chorus:

'Cause I could be completely mad

Broken down in tears, sadder than sad

And if there's one thing that could change my mind

It's knowing you're not far behind...

Verse 2:

You touch something inside of me

That's been only touched in dreams

I never felt my happiness in heartache

Go to so many extremes

We didn't say what we're supposed to say

We just were ourselves

It turned out this way

Didn't know your impact

It just crept up and swept me away

Chorus:

'Cause I could be completely mad

Broken down in tears, sadder than sad

And if there's one thing that could change my mind

It's knowing you're not far behind...

No words can get me when they come from you

You finish everything

You follow through

It's not just a matter of consistency

Everything you do is new to me...

Bridge:

Everytime you talk about it baby

I think words

Do we really belong

In the same place, at the same time

Wasn't sure about faith but you changed my mind...

Chorus:

'Cause I could be completely mad
Broken down in tears, sadder than sad
And if there's one thing that could change my mind
It's knowing you're not far behind...
No words can get me when they come from you
You finish everything
You follow through
It's not just a matter of consistency
Everything you do is new to me
