Quiet now while I hold you

Turn it off the mind that is stopping you

Love is here

So why deny what you feel

[Chorus]

Think with your heart

Speak with your soul

Touch me and feel

The world become whole

Break down the walls

Keeping you far

Be as in love as you think you are

We live on time forever

It can be glorious heaven on earth

So quiet now while I kiss you

You decide what you feel heaven is worth

[Chorus]
