VERSE:

Yes I know you're strong

I've seen all you can take

But it's wrong -

Even strong men get weak

Even steel can break.....

Even steel can break

I know you know

Your weakest points, baby

But you never wanna change

You can never be more than just satisfied

If you stay within safe range

CHORUS:

Try

Why don't we try a little harder

Let the good outnumber the bad

Cry

Must I,

Must I cry any longer?

Can we try anymore?

Am I worth it -
