Verse 1:

Busy life, not enough time

to look in the mirror

Life in the fast lane...

Look around and take note

Who really loves you?

Don't get caught up in the clouds

or you'll go insane

When it seems everyone is needing something

Remember who's always been there for you

Chorus:

WHO LOVES YA BABY?

Who really loves ya baby?

Who's always been on your side morning and night?

WHO LOVES YA BABY?

Who really loves ya baby?

Who's gonna see to it that

you're treated right?

Verse 2:

Just a smile is alright

Don't owe me anything

Come escape with me...

You have got the world at your feet

that's not always easy

All those people caring,

yet you're still alone

I understand what's behind the feelings

I think I know you better than anyone

Bridge:

I believe in you...yes!

You believe in me too

Don't ever get swept away by something not real

'cause the way I feel...

oh I will always feel that way
