Welcome everybody  
To our humble abode  
Like Ford to Orenthal  
Let's get the show on the road  
So turn down your lights, and turn up your speakers  
Everybody dance around cuz we're all social creatures  
Knock knock who is it?  
We're being paid a visit  
From notable nobles  
With visions of white picket fences  
Foreign cars and platinum expenses  
Bangin on the door with a list of our offenses  
Well you can knock 3 times on the ceiling if you wanna  
Or put 4 kicks on the floor but I'll be honest  
We ain't turnin down till the sun comes up  
The sound gets sucked through pipes and ducts  
So rise and shine hear the party line  
Keep it on till the dawn and watch the night decline  
The band becomes a crowd, the crowd becomes a rally  
The people fill the streets and it seeps into the alley.

It aint loud enough for all of us  
We break you outta your shell  
we came to rock, rock the decibels  
(x4)

J Guevera move the people like it aint no thang  
From the Duke of Earl to the Sultan of Swing  
I get loyalty like I was royalty  
All your plots and schemes have been foiled  
See i got lines and quotes  
The ryhmes i wrote  
Should be printed in Bartlett's  
And now its time to start this  
But first all the heartless must show some compassion  
Barriers need breakin, walls need some smashin  
Like Navratilova, beethoveen rolled over  
Now we got the floor and it smells like Korova  
Does your body good, and your mind even better  
From the crew that blew the panties of your auntie  
when we met her

It aint loud enough for all of us  
We break you outta your shell  
we came to rock, rock the decibels  
(x4)

Attention, this court is in session  
Repeat the last question (repeat the last question)  
The one before (Which one?)  
Who got the diction to blow up like nuclear fission?  
We do, in addition  
We're on a mission  
We circulate like a petition  
Convert you like religion  
To our position  
In opposition to submission  
So focus  
Your vision if you wishin for a clearer transmission

(not really sure about this part)

Pledge allegiance to your leaders  
Dream regime divas  
Devastating beat bequethers  
We bring your legions into freedom  
render to caesar what is caesar's  
then leading sheep from feeders  
Into stereo receivers spread by Baba Ghanoush  
Direct from the electorate this aint no push  
We're overloading meters stirring sleepers from their  
beds  
cuz we lead the People's Party like Eugene V. Debs

It aint loud enough for all of us  
We'll break you outta your shell  
we came to rock, rock the decibels  
(x4)
