Look deep into my iris,,  
its the reason on wet papyrus,  
your mind is bliss the hieroglyphs  
are explicit.  
Ancient arts are a part of existence.  
Drive through the tribe  
of the vibe of terrorist blast  
through the true blue like selouvious.  
It's the source of my voice be the key to big Enhances  
now you dances like UVA,  
like dumpling its fabulous,  
like the coming miraculous,  
ain't it something  
how we do with gumption  
its a safe assumption  
that we get the party bumping,  
small wonder itching under my influence  
its over I'm taking over in increments,  
I look tight in my vice like Miami,  
the super powered ocean gets ya moving to the power  
of the whammy.

Get Down,

Get Down,  
Listen to the Sound

Get Down,

The power of suggestions  
got you on your knees depression.  
Dimensions will rise  
before your eyes disguise  
to initial DUI's  
you try to fight your face  
influenced by undermind,  
you spread to the head like inspection.  
The ghost in my throat  
towards an infection.  
The conventions between resistance and absence.  
You will power. We vanquish the masses  
like allies to ashes you dances.  
You're tricked by the tricks you design,  
the thoughts are racing around your mind,  
more of which you is ritual,  
we bring emerging energies  
forming mastered individuals.  
With the nieve kid  
would he  
can he, ugh,  
I hit him with the whammy.
