"Love Letter"

Visit "[Love Letter](#)" on MotoLyrics.com

I'm writing this letter to let you know
This love of ours just can't go
I never knew how happy I'd be
'Til you showed me how love can be
This letter that I write you is to let you know
Is how I feel and what we share is for real

Chorus:

This letter, I write to you love letter
Love, love letter (4x)

When we're together and all alone
The meaning of love really shows
Never a tear falls from my eyes
Because with you my tear is dry
So I write this letter for the world to know
And see how true love can be

Chorus

I'm writing this letter to let you know
This love of ours just can't go
I never knew how happy I'd be
'Til you showed me how love can be
This letter that I write you is to let you know
Is how I feel and what we share is for real

I was lost and in the dark
Then you came and lit a spark
Now my days are full of life
And it seems like paradise
Repeat (1x)

So I write this letter for the world to know
And see how true love can be

Chorus
