Ooh baby  
Come to me baby just come to me  
Don't breake my heart tonight, swinging my soul desire  
Baby just come to me, be what you wanna be  
Using your fantasy, I need your soul to see

Baby just come to me, now we can do it right  
Holding each other tight, now we can make it right  
I promise you delight, waiting until day light  
I gotta have the key, to open your heart to me  
Now I can set you free, be what you wanna be  
Don't wanna live alone, I gotta be so strong  
Don't wanna be alone,

Baby I love you so, and never let you go  
I'm looking for your face, wating for warm embrace  
I'm living in the space, I'm following your trace  
Tell me what's going on, tell me what's going on  
I'm gonna make you queen, girl have you ever seen

I never thing you wanna, we won't belong  
I can see your face too strong  
I sing you wanna think, you'll be wide on mind  
Don't you ever satisfy my soul in any.....  
By my side, I'm not laughing, I'm not crying  
Don't you go.....

Baby I love you so, and never let you go  
I'm looking for your face, wating for warm embrace  
I'm living in the space, I'm following your trace  
Tell me what's going on, tell me what's going on  
I'm gonna make you queen, girl have you ever seen
