You gotta look over your shoulder
Cos remember they don't teach that shit in school
today
Just remember what i told ya today-today-today-eh-eh-
eh
Just because you've gotten older, it don't make you
wiser
Best keep your eyes up uhuh
Just remember what i told ya today-today-today

(Giggs)

This shit aint easy as you think it is
This aint an accident, neither a coincidence
I'm bringing money to this rap game. Im like the light
That creates the photosynthesis.
I take life with a pinch of it.
Smoke weed, you can tell the way i stink of it.
My mixtape, the best in the street.
See me on the road tell me what you think of it.
Now what d'you motherfukers think this is, give me a
mic im'ma show you what distinctive is.
Fuck a top ten, imma break a record show you nigas
what olympic is.
Fuck that niga' and the whimp he's with
Get the money now, later show them what the simpson
is (maggie).
Bag full of 50s.
Showed it to my nigas said they can't believe how pink
it is.

This that look over your shoulder part-t-t
This that soldier bar, nigga this that joan of arc
I think the street life stole my heart
The nigga that i used to be, we done grown apart
The first time that i stole a car, me and Lap went
glocester we had loads of laughs
Shit changed i had to soldier march, all the way into the
pen, cuz i know my past
I chose a path, number 35 from nahtin fam i choose the
chart.
Showtime, couple thousand singing 'look what the cat
dragged in', yeah they know my bars.
I told the white people and i told the dark, and it aint a
racist thing this is no remark.
Try'na keep the music and the road apart.
Imma give it everything i got this ma only chance.
