### "On The Radio"

Visit ["On The Radio"](#) on MotoLyrics.com

You better watch your step  
You must be on your guard  
And take it slow  
And promise me be careful of  
What you do  
I know you're strong  
I know you'll make it on your own  
Without my help  
But please make sure you won't  
Be by yourself  
Everytime I hear my song  
On the radio  
I keep moving closer  
And closer to you  
Everytime the DJ is playing my song  
I can feel you here by my side  
All night long  
You got to be much harder  
Take it from the start  
And try again  
You got to be much faster  
If you can  
You probably will fail  
No matter how you try  
It's not enough  
It takes so much  
To make it to the top  
Everytime I hear my song  
On the radio  
I keep moving closer  
And closer to you  
Everytime the DJ is playing my song  
I can feel you here by my side  
All night long  
Let's go down  
To the dancefloor if you dare  
Now's the time  
To show that you're not scared
