Stay with me forever
Sharing love together
Keep my dream alive
Touch with me the sky

Is got to be the reason
Share with you my freedom
Steal a ray of sun
While I'm here with you
You must come along
Everywhere I go
I just want to love you so

To fall in love with you
I never ever played
I just want to say hello
It takes so long to draw
From every where I go
I just want to love you so

To fall in love with you
I never ever played
I just want to say hello
It takes so long to draw
From every where I go
I just want to love you so
