YouÃ, 're still close  
when somebody says  
and I want to you not by your way  
and you tell me this time  
nowhere I go and IÃ, 'm not by your side  
time after time after time  
never you used it control by my side  
never you made and you tell me goodbye  
you are my sign  
you are my soul  
you never told

When you tell, when somebody says  
never use to told i feel this way  
never you set my side  
you are my choice and we fly away  
somebody saw that way  
used to control other side by your type  
never you said  
but I feel it the same

aaahhh

you are my land and my soul

nobody nobody nobody

When you tell, when somebody says  
never use to told i feel this way  
never you set my side  
you are my choice and we fly away  
somebody saw that way  
used to control other side by your type  
never you said  
but I feel it the same

aaahhh

you are my land and my soul

nobody nobody nobody

nobody nobody nobody

You're still close  
when somebody says  
and I want to you not by your way  
and you tell me this time  
nowhere I go and I'm not by your side  
time after time after time
