Girl From Yesterday

One day you don't even know what time it is
You lay by my side, still don't know why...
The empty streets have seen you grow and change
I know in your heart you might be crying again

I look out of the window for the girl i knew yesterday
Smiling at the flowers of my favorite garden
Too hard to understand, too hard to comprehend
Why you and i can't never be together again
The early morning light that slowly fills the room
Makes your golden hand shine like the sun
..... i'm still listening to
Every song that ever made me fall for you

I look out of the window for the girl i knew yesterday
So hard to understand there's nothing i can do
I'm going out of my mind following you.
