You make me feel like I was special  
But then I found out that it was your specialty  
You said you'd give me everything but  
Instead you gave me all to everyone but me  
And it was plain to see

But now I know better I have to move on

[chorus]  
I'll find another baby  
Wish you were never on my mind  
No more lies and maybes  
Now I'm taking back what's mine  
Find another baby  
And I'll be better off this time  
So you can be wherever  
Still you're never on my mind

I threw out all my memories of you  
As they fell to the ground the sun came shining in

Black and white has turned to color  
With a single breath I feel my life begin  
Now it's the time to win

It's the end of this story cause I'm moving on

[chorus]

(never on my mind) x 4

But now I know better I have to move on  
Oh yeah oh yeah yeah yeah

[chorus]

Never on my mind [repeat to fade]
