It's easy to say but so hard to do  
For some it's four letters for me it means you  
I've played all the games don't want to pretend  
So baby don't let this come to an end

Only you and I under the sky  
Only you and I never say die  
All the things I do are better with you  
Always you and I til forever is through

Let me be weak cause that makes me strong  
and give me the power I need to move on  
Like one and one can be more than two  
Feels like there's nothing that we couldn't do

Only you and I under the sky

Only you and I never say die  
All the things I do are better with you  
Always you and I til forever is through

I think we're old enough to know  
what we want and where to go  
I think we're wise enough to see  
that things are up to you and me

I've played all the games don't want to pretend  
So baby don't let this come to an end

Only you and I under the sky  
Only you and I never say die  
all the things I do are better with you  
always you and I til forever is through
