Incandescent moon is shining  
Just for you tonight  
Shimmering a golden halo  
Does it follow just beyond your sight?

Sigh  
You're an angel  
Wanting wings for flight  
Tonight  
Baby's breath in the waxing light

Glassy seas of blue  
I will dream of you

Let's close our eyes till daylight comes  
Baby's breath and chrysanthemums  
So beaming blue these dreaming skies  
In soundless sleep, now close your eyes

Till daylight  
Till daylight comes  
Till daylight  
Till daylight comes  
Just close your eyes till daylight comes  
I keep feeling that the strangest  
Peace is all around  
In the speechless, in this quiet  
Angels never make a single sound

Sigh  
Baby's breath and lilacs so profound  
Falling down  
Softest moonlight making garlands  
Forms the crown

Glassy seas of blue  
I will dream of you

Let's close our eyes till daylight comes  
Baby's breath and chrysanthemums  
So beaming blue these dreaming skies  
In soundless sleep, now close your eyes

Till daylight  
Till daylight comes  
Till daylight  
Till daylight comes  
Just close your eyes till daylight comes

Just close your eyes till daylight comes  
Till daylight comes
