

Brave Saint Saturn "Titan"

Visit "[Titan](#)" on MotoLyrics.com

Behind what I know and see
A darkness that will spy on me
Eclipsed in this trajectory
A cancer that is eating me

Destroy, divide the dark inside
Destroy, divide the dark inside

In between the molecules is cold
No light for shaking fingers to ever have their hold
And I'm afraid I'll never see the light

The blind are following in sightless plight

Here its comes

Destroy, divide the dark inside
Destroy, divide the dark inside

Titans looming over me
Giants that are crushing me
Titans looming over me
Giants that are crushing me

Here it comes

Destroy, divide the dark inside
Destroy, divide the dark inside
Destroy, divide
