I don't believe you'd let me d own I don't believe you'd
go But lately you're avoided me If something's wrong
You know The least you should do Is tell me what you
Think's wrong and we'll work it out If you don't I'm
about To be faced with a problem only you Know how to
explain Although I've tried a hundred times Even
looked inside my brain Yet all I could see Was that you
and me Were getting along just fine Think I'm about to
be binded and thrown Into a room wallpapered with
gloom And furnished with memories I No longer
believe in cause someone's deceiving me I won't say
who I don't have to Yet all I could see Was that you and
me Were getting along just fine Think I'm about to be
binded and thrown Into a room wallpapered with gloom
And furnished with memories I No longer believe in
cause someone's deceiving me I won't say who I don't
have to I don't believe you'd let me d own I don't
believe you'd go But lately you're avoided me If
something's wrong You know The least you should do
Is tell me what you Think's
wrong and we'll work it out If you don't I'm about
