In the way that the world was flat  
Long before it was round  
Much the same as when Adam met Eve  
Apes could not be found

I'm seeing things now in a different light  
Even though the bulbs the same  
Unlock the doors  
Ceiling greet the floors  
I'm in love with love (again)

How'd it happen let's just say  
Luck has played it's part  
I was seated in row F  
While she served ala carte

For years I've struggled to overcome  
The bitterness and pain  
And now at last that's all in the past  
I'm in love with love (again)

And anyone who tells you  
Second time around  
Doesn't get much better  
Is on solid ground  
Let the bells ring out  
Let there be no doubt

Cross my heart and hope to die  
Hope to die delete  
Spread the news my life's returned  
And boy does it taste sweet

To call it some kind of miracle  
Would I think be a claim  
Kick out the jams  
Raise your lager cans  
I'm in love with love (again)

I'm starting to get the feeling back  
In places I could name

Suffice to say let the music play  
I'm in love with love (again)

You'll have to excuse me  
If I appear to  
Be a little over keen  
Hardly surprising considering where  
For the last few years I've been

Once the writing is on the wall  
Not much you can do  
I tried everything in my power  
She tried someone new

But now quite suddenly  
Words like bliss  
Have entered my domain  
you have to laugh running with a bath  
I'm in love with love

Arrest that man for every wheel he'll clamp  
I'm in love with love  
I'm in love with love  
I'm in love with love (again)
