I have not a girl that's mine  
I have not a friend  
I have not got a place to live  
Indeed it seems the end  
But it ain't for me  
As I've got myself which matters most  
Throughout the life I lead

I have not a penny in my pocket and if soon  
I should be found just as badly broken  
I won't gloom  
Cos it ain't me  
As I've got myself which matters most  
Throughout the life I lead

I have wandered into many a town  
And have often been tempted to settle down

Yet if I did I'm sure I'd find  
I'd always change my mind  
So I'll keep right ahead with what I'm doing

Although I have no luxuries  
My mind is quite at ease  
It may seem medieval yet it's all that my heart pleads  
And it ain't for me  
Cos I've got myself which matters most  
Throughout the life I lead
