There are others in this world besides me  
Yet you never seem to worry about them  
There are other girls to keep you company  
Yet the only one you want amongst them is me  
So I love you  
Like I love you  
And I'll hold you  
Like I do  
And if anybody ever tries to tell me differently  
I'll really show them just how much a man I can be

There are other kinds of girls to be loved  
And the same goes for the men that they will marry  
But if the girl I take pride in is not enough  
I should be left on my own to myself  
So I love you (So I love you)  
Like I love you (Like I love you)  
And I'll hold you (And I'll hold you)  
Like I do (Like I do)  
And if anybody ever tries to tell me differently  
I'll really show them just how much a man I can be

All I've wanted throughout life  
I've found when I'm with you  
That's why I want you to be my bride  
And I know that you'll agree 'cause you love me

Seven hundred times I've asked you how you feel  
About being the girl who's only loved by me  
And a thousand times I've got the same reply  
It just makes me feel so good I wanna cry  
Now I love you (Now I love you)  
Like I love you (Like I love you)  
And I'll hold you (And I'll hold you)  
Like I do (Like I do)  
And if anybody ever tries to tell me differently  
I'll really show them just how much a man I can be  
I'll really show them just how much a man I can be
