You don't know me, I don't know you, We're like
strangers coming out of the blue, We call each other by
different names, My name is Tarzan baby, your's could
be Jane, Looks like rain, I think there could be snow,
These days somehow you just never know, The weather
bureau are finding it hard, Yesterday's sunshine
caught them off their guard What you see is what you
get, What you are is what you expect, You expect, Oh,
I've no secrets to keep from you, Not that that's
something I wouldn't do, We all have secrets that we
keep to ourselves, Mine is what I love to, but I'm afraid I
can't tell What you see is what you get, What you are is
what you expect, You expect, What you see is what you
get, What you are is what you expect, You expect, What
you see is what you get, What you are is what you
expect, You expect
