

Gilbert O'sullivan "You"

Visit "[You](#)" on MotoLyrics.com

Each time that I see you
I believe you'll be mine
It may sound ridiculous
But this is what I'm
Getting satisfaction from
I don't care how stupid or wrong
It is as long as I'm in touch with you

Why don't you for one day
Wont ask me to take you out somewhere
To some place there'll be time to make

Our's a lasting relationship
I dreamt both night and day that it is true
I hope for my sake you realise everything
I have said to you today is true
I guarantee tomorrow I will act this way if you

Let me take you somewhere in the distance
Where resistance is low
You must agree you wont make me sad

As a reply I'm telling you
I always try until I do see the time
When I can call you mine
