"Close Your Eyes"

You know you can feel the breeze with patience of a lifetime

Dance above the trees to the rhythm in your mind

Gently touching your skin inside out

Floating on the seas, it carries me around

You can close your eyes and never be alone

You can close your eyes and never be alone

You can close your eyes and never be alone

You can close your eyes and never be alone

Penso em vocÃª, sinto um gosto de mar

Nos grÃ£os de areia, e eu a rolar

Vou rodar o mundo , mas aqui Ã© o meu lugar

Eu vou rodar o mundo mas aqui Ã© o meu lugar

You can close your eyes and never be alone

You can close your eyes and never be alone

You can close your eyes and never be alone

You can close your eyes and never be alone

Since the day I left, from the start

I can feel megabytes of memories in my heart

Wish I disappear and wake up in some other place

Where there's no pain or fear, is simple like 'Hello'

You can close your eyes and never be alone

You can close your eyes and never be alone

You can close your eyes and never be alone

You can close your eyes and never be alone
