It starts whit tierdness n bullshit um depressed and  
stressed watch out 'cause u mother fucker  
Will get knocked out  
Um in my bed sick and tierd my head hurts my chest is  
pumping whit blood my heart is stumping my laungs  
are finish i can die anymin just take a nother breath  
hoping it doesnt't stop here..  
Evry-time i think about my life i think big bunch of kyfe  
Holding this gun to my temple dropping tears wishing i  
whould hear my beautiful gurl again  
Shes gone for 4 days it's like im going the wrong way's  
my head don't think right evrything i see  
Its not heaven and dreams it's murder and seems...

I wish it whould be heaven and dreams n not murder  
and seems  
N i want my head seeing evry sight my lungs tight i  
don't wanna leave this world  
'cause i know im in love whit this gurl right..?

Shes alwas saying don't say that or this but this is how i  
feel inside um losing my pride  
U gotta help me up 'cause um falling down whit  
depression and stress  
This is not my best pride i just wanna leave my tears  
inside and live this wounder full life  
U problebly hear this evryday but im scared of lossing  
u..  
Is kiss is a kiss intil i find ur love a hug it's just a hug til  
im the one u dreaming of u  
A dream is a dream til is commes true but i know right  
now the love iv got for u  
Is proven to be true..

I got this from a poem but i change a lot 'cause i want it  
to be true and fine how the ur mine.  
The way u shine that makes evry thing fine..but i think  
it's the rhyme that  
puts this gun to my head 1000 emotion's going true my  
mind that wasn't even said.. sick and tierd of this  
fucking rhyme but i think it's time that i should let this

go n show how i much u love u (BOOM) it's a new crime  
cops found out it's a suicide thinking why whould i  
fucking die

In my bed guts n full of blood of my brain there all  
going insaine saying i was brain washed bye the rap  
music but looking at my hand whit this paper it's a song  
heaven and dreams..... at the end it sais i love you  
danika sorry for leaving u like this but don't worry um  
whit u evry single moment\*\*.. of ur life plz don't take it  
hard 'cause i did it for the best us..

I ask my self to god why i pulld the triger for this gurl  
s0o0 i held my head up hight and look at my life and  
pulld the triger

N made me cry

As i rest in peace in my coffin i think about my life and  
think about all the memories i had and think about what  
i did wrong

But the darkness makes me blank whit 10 feet down  
sank.

Soo hush my baby gurl don't u cry evrything will be  
alright close ur eyes and drift whit my memories hight  
And make me rest in peace a sleep... babe hold my  
shirt tight evry-day i will give u life

As i drift off to ur world n make me rest in peace a  
sleep very deep....

Notings to hind and notings to see in this coffin whit no  
life and no pride as i rest in peace deep..

I had a good life til i lost my gide tell evry-body i said  
good-bye as i pray n say hi for heaven til the day i die.  
Looking at my dead body on my bed whit guts and  
blood brains all over the walls as the c.s.i my body  
They expect no return..as they look at my body n the  
sky see the thunder of a cross of my face as they feel  
the pain of that sad of they loss.

i wish it whould be heaven and dreams n not murder  
and seens

N i want my head seeing evry sight my lungs tight i  
don't wanna leave this world

'cause i know im in love whit this gurl right..? right..
