I was listening to our records  
but I never played our song  
the underground sang "sunday morning"  
lou reed was never wrong

I wanna write you something  
sing it from my heart  
stole the words from a hallmark card  
I never used, but they're so true

sorry I can't write a song about you  
sorry I can't write a song about you

I was watching some old movie  
it really wasn't that good  
it wasn't "inside daisy clover"  
there was no nathalie wood

I wanna tell you something  
say it from my soul  
the words got stuck in my throat  
nothing came out, but I mean it loud

sorry I can't write a song about you  
sorry I can't write a song about you
