Just a one-room country shack
Gone a lie here on my back
It's too easy, it's too easy to feel good

Bootleg whiskey all the time
Ain't no reason to be cryin'
It's too easy, it's too easy to feel good

All this life is but a dream
Who's to worry about tomorrow
Now I don't care baby even if I should

Gamblers shuffling their cards
Don't know why they work so hard
It's too easy, it's too easy to feel good

I might pawn my watch and chain
I might sleep out in the rain
It's too easy, it's too easy to feel good

Do you miss me in my song
That you hardly know I'm gone
It's too easy, it's too easy to feel good

I spent Christmas time in Jail
I've been blown out on the trail
Then I packed my bags and vanished in the woods

Just a one-room country shack
Gone a lie here on my back
It's too easy, it's too easy to feel good

It's too easy, it's too easy to feel good
