I got an old V-8 from the year I was born  
Don't look like much just a flat black Ford  
But the engine's clean, I could paint it someday  
But most of the time I like it this way

Don't turn no head, don't catch no eye  
Just a wind on the road gonna pass you by

Well, I used to talk tough, I used to get loud  
Want to paint my name all over this town  
The folks lined up just to dog my day  
Now if I stay quiet they stay out of my way

Don't turn no head, don't catch no eye  
Just a wind on the road gonna pass you by

I got a brand new plan, I'm gonna help myself  
'Cause it's a fat man's town, I'm gonna share the  
wealth  
Put the money in the bag, keep your hands in sight  
Turn around count to ten and I go back into the night

Don't turn no head, don't catch no eye  
Just a wind on the road gonna pass you by

Don't come over here, don't scream don't cry  
Just a wind on the road gonna pass you by

I got an old V-8 from the year I was born  
Don't look like much just a flat black Ford
