Love on the air  
I keep transmitting but reception is hazy  
I don't get an answer  
Keep sending it faster  
Always knew it was crazy  
To put my love on the air.  
No one will hurt me again  
No one will cause me to lie  
No one will control me by pain  
No one will cause me to cry  
I was looking for love  
In wandering eyes  
Like a ship trying to fix on a beacon  
I learned how to sigh  
On the ribbon and wires  
It's a habit that's so hard to weaken  
No one will ever manipulate  
Make me promise to do or die  
No one can make me hesitate

What can I lose if they try  
I was looking for love  
Like the very first time  
Didn't realise love never left me  
Contradicted - conspired  
I connived and designed  
Nothing on earth could arrest me.  
Reception is hazy  
When you put your love on the air  
Always knew it was crazy  
To put my love on the air  
But I only communicate  
When I put my love on the air  
You don't have to consummate  
Love on the air
