And I've lost my mind on what I'd find
And all of the pressure that I left behind on Allison
Road
Fools in the rain, if the sun gets through
Fire's in the Heaven of the eyes I knew on Allison Road

The dark clouds fall in when the moon was near
Birds fly by a.m. with a bedroom stare
There was no tellin' what I might find
As I couldn't see I was lost at the time

On Allison road yeah I didn't know
I was lost at the time on Allison Road

So she fills up her sails with my wasted breath
And each one's more wasted than the others
You can bet on Allison Road

Now I can't hide on Allison Road
So why not drive on Allison Road
I know I want to love her but I can't decide on Allison
Road

And I didn't know I was lost at the time
Eyes in the sun where the road wasn't wide
And I went looking for an exit sign
All I wanted to find tonight

On Allison Road yeah I didn't know
I was lost at the time on Allison Road

And I've lost my mind and if the sun gets through
Fire's in the Heaven of the eyes I knew on Allison Road
On Allison Road, on Allison Road, let's run
