When you taking all you find
I cant tell what isn't mine
Now I cant reduce the fever
and no matter how I try

Theres a pain that isn't real
From the moment you can feel
You begin to lose your power
it was such a bright and damn

From the pain you know you'll not asleep now
You lost space its all that matters any how
Go Crybaby
by: Gin Blossoms

Go baby cry
in falling voices, pain for all that time
Come on out, its your mistake and it takes forever...

Go baby cry
in falling voices, pay for all our crime
Come on now... if you wanna cry...Go baby cry

I surround you with this walls
Hollowise and never halls
I supposed you think its funny
getting wasted on our soul

Theres a wound you never reached
When you bend it jen you nitch
Theres a chill tonight around us
cutting off from our release

Feveryday we spend another week now
Its my mistake but i can never see how

Go baby cry
in falling voices, pain for all that time
Come on out, its your mistake and it takes forever...

Go baby cry

in falling voices, pay for all our crime
Come on now... if you wanna cry...Go baby cry

Adlib.....

Go baby cry
in falling voices, pain for all that time
Come on out, its your mistake and it takes forever...

Go baby cry
in falling voices, pay for all our crime
Come on now... if you wanna cry...Go baby cry

Go cry baby, go cry baby, go cry baby Go...Go baby cry

Go cry baby, go cry baby, go cry baby, Go...Go baby cry

Go cry baby, go cry baby, go cry baby, Go...

Go baby cry... If you wanna cry...go cry baby, Go...
