"Stop"

Ruled by Venus is a curse, but those who know
I fall apart in a day or so
Always wanted something more, something true
And I found it when I found you
And I came under your spell

Chorus
Stop, stop
Stop, stop
Falling
Stop, stop
Falling apart

She always listens to the words that I say
I repeat them so they won't go away
Never knowing when I'm wrong or I'm right
Running through all the red traffic lights
And I came under your spell

Chorus

And I came under your spell
I came under your spell

Chorus (variation)
