I've watched you come
And I've watched you go
Life's so beautiful
Doused in the petals of the rose
Touched by the sun of gold
Inside the fire of the number 8 ball
To see if the penny will fall on

Easy come
Easy go
Is what I'm playing for
If I lose
Easy come
Easy go
Will get me through

If I had one more day
Of all days I'd ask again
Would you wait, would you hold one for me?
When the weight on my shoulders is dragging me
under
Of my way just to say
That I've saved one for you
And when my timing is numbered
Count all the days till yesterday
As we have today, for just you and me
Would you wait, would you wait here for me?

Have you ever looked under the night
Pretending that you can fly
A million miles in just one hour
A find of a childhood time
No regrets
No last goodbyes
We have all had our time to shine

Easy come
Easy go
Is what I'm playing for
If I lose
Easy come

Easy go
Will get me through

If I had one more day
Of all days I'd ask again
Would you wait, would you hold one for me?
And when the weight on my shoulders is dragging me
under
Of my way just to say
That I've saved one for you
When my timing is numbered
Count all the days till yesterday
As we have today, for just you and me
Would you wait, would you wait here for me?

Would you wait?
Would you wait?
Like a man waits for his wife
And would you wait?
Would you wait?
Like the sea in a rushing tide
Would you wait?
Would you wait for me?
