Yeah, this road is winding, narrow and steep  
And I can't keep walking with frozen feet  
My spirit's not willing, my heart is cold as ice  
Thaw out my convictions, the passion's left my life

And I don't wanna be a flame  
I wanna be a raging fire  
Tired of my will, my way  
Your calling's higher

And I know it's time I stop running from the truth  
So I'll stand here still until I'm filled, I wanna be moved  
Oh yeah, I wanna be moved by You

Wanna be a rebel with a holy cause  
Stand against the Devil and hold up my cross  
You have a mission for me, a reason why I'm here  
To radiate Your glory, with sweet songs to Your ears

And I don't wanna be a flame  
I wanna be a raging fire  
Tired of my will, my way  
Your calling's higher

And I know it's time I stop running from the truth  
So I'll stand here still until I'm filled, I wanna be moved  
Oh yeah, I wanna be moved

And I don't wanna be a flame  
I wanna be a raging fire  
Tired of my will, my way  
Your calling's higher

I know it's time I stop running from the truth  
So I'll stand here still until I'm filled, I wanna be moved  
Oh yeah, I wanna be moved  
I wanna be, I wanna be moved, I wanna be moved by  
You
