I've been feeling a little bit overwhelmed,  
I've been a little too wrapped up in myself,  
So many things to cloud my mind,  
I need to leave them all behind,  
And think about a place and time  
Beyond this life

Won't that be fine,  
Oh when the sun always shines,  
Nothin but love all the time,  
Oh won't that be fine.

I love to get caught up in this daydream,  
I smile to think about all that I'll see,  
And any need I've ever had,  
Any question that I want to ask,  
Won't even matter  
Gone with the past

Oh won't that be fine,  
Oh when the sun always shines,  
And there is love all the time,  
Oh won't that be fine,  
And won't that be fine,  
When everything wrong will be right,  
And when we will walk in the light,  
Won't that be fine
