Gino Padilla
"I Believe In You"

I always thought that life was sad
For someone who's not free
I felt the chains binding me
From things I long to see

But when you came you changed it all
I've never felt the same
I'd hate the thought of losing you
When there's so much more to gain

CHORUS:
I believe in love
I believe in you
I believe in everything
The two of us can do
I believe in miracles
I've seen them all come true
So won't you take a chance with me
Cause I believe in you

When night I'd looked upon the stars
And saw one shining bright
Guiding me through all these times
When nothing did seem right

But now I've come to realize
There's no else for me
Cause after all the pain I've felt
You've come to set me free

CHORUS:
I believe in love
I believe in you
I believe in everything
The two of us can do
I believe in miracles
I've seen them all come true
So won't you take a chance with me
Cause I believe in you

I believe in love
I believe in you

I believe in everything
The two of us can do
I believe in miracles
I've seen them all come true
So won't you take a chance with me
Cause I believe in you

I believe in love
I believe in you
I believe in everything
The two of us can do
I believe in miracles
I've seen them all come true
So won't you take a chance with me
Cause I believe in you

I believe in you...
