We gonna party alone on the floor (you know alone)
Take off your clothes get on the floor (you know i know)
It's hard for you to be alone that's why i'm here (oh no)
I fell for you get on the floor
I wanted to be so in love
We did it with the worst intentions
Face in the door
Clothes on the floor.
Getting nervous as buttons loosen
Eyes turn to cameras
Capturing every moment
The blanket covers for our comfort
See shadows under the door
My eyes turn to the camera
Door handle turns
Here we go again tonight
I'm underneath the sheets
Wrapped up tight, it's on
One more time for you and me it's on
