Tonight I find out
Just what you are all about
I'm the one that's come looking for you
I got the bottle baby, baby, baby...
It's all for you
Showed up to the room
About 3 or 4 ladies runnin,
Runnin right out the door

We came here to party like it's goin out (x2)

We'll do this the whole night
This could be what we needed
We can do what we want to
A single melody to give this meaning
This memory is making moves

We came here to party like it's goin out... of style

(x3)

I'm ready to go
I got the bacardi
We got the bottle topped
Who's ready for more?
Let's start this party
We got everything you're looking for

We came to the party like it's goin out (x3)

We'll do this the whole night
This could be what we needed
We can do what we want to
A single melody to give this meaning
This memory is making moves (x2)

I'll be there, not far behind.
