The secrets out, our lips are wide as oceans
I sold my eyes for emerald dimes
The edges blur, the walls are bending

You bite like you don't have any teeth to break my skin
I feel like she's on fire
And every room is another room I'm walking in
We couldn't get much higher

I tripped and fell so deep I can't come down

How did you run into a door that's wide open?
Get a hold of yourself
I tripped and fell so deep I can't come down

Our hands are melting maps
Balancing on a fence, the change made no sense
The edges stir, the walls are dancing

I steal everything just to give it back again
Trust me I'm a liar
And all the words I bought, they aren't worth anything
We couldn't get much higher

I tripped and fell so deep I can't come down

How did you run into a door that's wide open?
Get a hold of yourself
I tripped and fell so deep I can't come down

Brace yourself, there's no way out
We left our minds behind
Climbing the blinds, fabricating time
'Til we come back to life

I tripped and fell so deep
I tripped and fell so deep I can't come down

How did you run into a door that's wide open?
Get a hold of yourself
I tripped and fell so deep I can't come down

How did you run into a door that's wide open?
Get a hold of yourself
I tripped and fell so deep I can't come down
